

VirCru

Shore Power Sensor

1. VirCru Shore Power Sensor Summary

If your boat is connected to shore power, it is critical to monitor connection and be notified of any outages. The VirCru Shore Power Sensor keeps you informed through the VirCru App, preventing nasty surprises when you arrive at your boat.

Included in your VirCru Shore Power Sensor Pack:

- VirCru Shore Power Tag
- Dual-Lock Adhesive Pads (one adhered to the back of the Sensor and the other supplied 'locked' to its mating half)
- USB Charger Plug (in region format)
- Alcohol Wipes
- This guide.

Before installing, we recommend registering the Sensor on the VirCru App by scanning the QR code. This functionality can be found in the "Settings" tab.

If any of these items are missing from your box, please contact VirCru customer service at:

01386 800 360 or

customer.services@vircru.com

2. Installation Guide

Safety Precautions

Please ensure to:

- Follow all installation instructions
- Avoid outdoor use
- Only plug into approved mains sockets that match the region format of the USB Charger Plug
- Only carry out tasks in which you are competent
- Make full consideration of the environmental conditions and hazards during installation.

The VirCru Shore Power Sensor is made up of a Shore Power Tag and a USB Charger Plug (in region format). When there is a break in shore power, the system will alert you via the VirCru Smart Boat App. You will also be able to view the on/off state of your shore power at any time.

The Tag can either be 'not mounted' and remain a portable device for use in any socket around the boat, or if a single, permanent location is preferred, mounted next to the preferred socket using the Dual-Lock pads provided (see instructions below). Before mounting, ensure that the lead to the USB Charger plug is within reach and when plugged in not straining the lead.

For the Shore Power Sensor to work, the socket must be left in the 'On' position.

VirCru Tags are mounted using Dual-Lock self-adhesive pads. One half is supplied adhered to the Tag back with the other half 'locked' to its mating half. To mount the Tag:

- Using one of the alcohol wipes, clean the position the Tag is going to be mounted in (select a suitable area with firm substrate)
- Ensure that the two halves of the Dual Lock are aligned, remove the adhesive protective cover, and press the Tag into position
- The Tag can be removed by gently pulling the Dual Lock pads apart (one half remains on the Tag, the other on the mounting surface).

3. The VirCru App

3. How to Install your VirCru App

The VirCru App is supported by software versions iOS 13 and above on iPhone, and versions 5.0 (Lollipop) and above on Android. Ensure your mobile has these software versions installed before downloading the VirCru App.

To download the VirCru App (iPhone):

- Unlock your phone and navigate to the 'App Store'
- Type "VirCru" in the search bar
- Click "Get" by the VirCru logo icon
- Once authorised, the VirCru App will Appear on your iPhone's home page.

To download the VirCru App (Android):

- Unlock your phone and navigate to the 'Google Play Store'
- Type "VirCru" in the search bar
- Click "Install" by the VirCru logo icon
- Once authorised, the VirCru App will Appear on your Android device's home page.

The VirCru App features a simple and intuitive interface to display and personally configure the data provided by the VirCru Hub, Sensors and Products installed on your boat.

The VirCru App main dashboard gives you an overview of all data, which can be explored in more detail if required. It also includes an inventory system for all the other products and services related to your boat, from insurance details, documents and renewal dates through to life jacket servicing.

For more information on configuring and using the VirCru App, please refer to our comprehensive App User Guide available at www.vircru.com. This document provides detailed analysis of the setup, features and functionality of our App in one place, and is constantly evolving as we add new features and technology to our interface.

4. Don't Forget

- Check your Hub and Sensors every few months to ensure they are working properly
- It is always best to mount your equipment on flat and smooth surfaces. Before fixing adhesive pads, ensure you clean your surfaces using the alcohol wipes provided
- If you require any assistance with installation, contact a professional marine electrician or a member of the VirCru team.

VirCru is your virtual crew – always onboard and always connected to you.

5. We're Here to Help

Phone or email our UK-based team for any technical support, product information or sales advice you need using the contact details below:

customer.services@vircru.com

We aim to respond to all email enquiries within 1-2 working days.

01386 800 360

Our phone lines are open 24/7 for enquiries, and we will aim to respond to your query (via your preferred choice of phone or email) within 1-2 working days.

Other VirCru Products
